USER'S MANUAL

61 KEYS DIGITAL ELECTRONIC KEYBOARD

Caution

Be sure to follow the below warnings to avoid hurting yourself or others and to avoid damage to the equipment.

Warning

- Do not disassemble or modify this instrument. Otherwise, Electric shock, burns, or other harm may be incurred. For all internal inspections and repair, be sure to take this unit to a qualified professional.
- If any wear or damage occurs to the power cord or plug, or you experience any power failures, or you smell an unusual odor, you should immediately turn off the power, remove the plug, and contact your local technician.
- Before cleaning your electric keyboard, be sure to power off and unplug the power cord. Do not operate with wet hands and do not wipe and clean the piano with a corrosive solvent.
- Do not mount the electrical piano on a mobile stand, slanted, or otherwise unstable surface. Otherwise, the piano may fall causing damage to the piano or harm to the user. Be sure to secure the electric piano to the stand with the provided screws.
- Keep the electric piano from rain, wet places, or areas of high humidity. Do not place the following items on the electric piano:
 - Containers full of water or other liquids.
 - Small Metal Objects that can fall into the piano, such as hairpins, sewing needles, coins.
 - Open flames.

Caution

- Avoid placing the piano in the following places to prevent the surface and internal components of the piano from damage:
 - Places of high humidity and dust
 - The kitchen or any other place with fumes.
 - In places of direct sunlight or anywhere else that may cause the instrument to become too hot.
 - Near other electronic appliances, such as the TV, radio, speakers, etc. To avoid electrical noise disturbances.
- Do not place heavy items on the piano and do not press any buttons or keys too hard.
- When not using the piano for long periods, please remove the plug. When removing the plug, be sure to pull it out by the plug and not the wires.
- Be sure to follow all instructions when installing the rack. Make sure to fasten all screws and fasteners.
- When moving the electric piano, lift with at least two people. If you try to move the piano on your own, you may strain yourself or cause damage to the piano.
- Be sure to regularly check that screws remain fastened.

- Do not place power cord near high sources of heat. Avoid over wrapping the power cord. Do not place anything heavy on power cord, and do not place the power cord where people walk.
- Do not play music too loudly for extended periods of time. Be careful with headphones, as loud music will hurt your ears.

2. External Functions

- 1.DC 9V in jack
- 2.Microphone output
- 3.Headphone

II. Before Performance

Power Supply

1. Using AC-DC power adapter:

Please use the power adapter that was provided with this electronic keyboard or a power adaptor with DC 9V out voltage and 500mA out current. Insert the DC plug of power adaptor into the DC 9V power jack in the rear panel of electronic keyboard, then, insert the other end into Mains socket. (Notice: The input voltage of power adaptor must match the voltage of Mains), finally turn on power switch and start performance.

Caution: Disconnect the AC power adapter when not using your instrument to prevent possible damage due to power connection for extended period of time.

2. Using batteries: (excluded)

Open the battery compartment cover located on the bottom panel of the instrument. Insert eight 1.5V D size LR-20 batteries, being carefully to follow the polarity marking on the cabinet. Replace the compartment cover, making sure that it locks firmly in place..

Caution: When the batteries run down, do not use different type of batteries at the same time.

Never mix old and new batteries. In case alkaline has leaked into the battery compartment; wipe it off completely before installing new batteries. To prevent possible damage due to battery leakage, remove the batteries from the compartment if it is not to be used for an extended period of time.

Rear External Connections

1. Using Microphone

A standard electret microphone (3.5mm) can be plugged into microphone jack .

2. Using headphone

A standard pair of headphones can be plugged into Headphone Jack for private practice or late-night playing. The internal speaker system is automatically shut off when a pair of headphones is plugged into the Headphones Jack.

Notice: the additional device above, needs to purchase seperately, it's not included with the keyboard.

3.

III. Basic Operation

I. Basic playing method

1. Power on

Press Power button to turn the power on, press again to turn off.

2. Master Volume

Rotate Master Volume knob clockwise to increase the Master volume and counter-clockwise to decrease the Master volume. Accompaniment volume will be changed accordingly when Master Volume be adjusted.

Voice

Selecting Voice

This keyboard has 300 different kinds of voices. The default status for the instrument is VOICE. Press VOICE button when the instrument is not in VOICE STATUS. Choose one of 300 Voices - shown on TABLE OF VOICES. Then enter its number by using numeric Voice BUTTON or by pressing +/- buttons in numeric group buttons to increase/decrease the current voice number.

Effect and Control

1. Keyboard drum

Press Keyboard drum button. Pressing different keys on the keyboard will play different drums. Notes played on keyboard will return to original voice by pressing the Keyboard drum button once again.

2. Sustain

Press the Sustain button once, the notes played on keyboard will decay gradually after lifting your finger from keyboard. Press the Sustain button again to turn the sustain effect off.

3. Vibrato

Press Vibrato button to turn Vibrato effect on. Then pressing the black/white keys will produce the Vibrato effect.

4. Keyboard Split

Press Keyboard Split button to divide keyboard into left-hand keyboard and right-hand keyboard. The left 24 keys will be left-hand keyboard and the rest of the keys will be divided as right-hand keyboard. The voice on right-hand keyboard can be selected by pressing the number on numeric group buttons. Producer initially sets the voice on left-hand keyboard. Press the button once again to turn Split effect off.

5. Tempo

Press Tempo button + or - to increase or decrease the tempo value for rhythm, metronome and demo song. There is 210-tempo value among the range of tempo value from 30-240 beats per minute. Press + or - buttons simultaneously to return to default status at 120 tempo value.

6. Transpose

Press Transpose button + or - to increase or decrease the transpose value up and down +/- 6 levels and shift the pitch of entire keyboard up and down in semitone intervals. Press the +/- buttons simultaneously to return to default status of keyboard tone.

7. Fine tuning

Press the Fine-tuning + or - buttons to micro control the tone within the range of 99 levels between the two connecting tones. Keep pressing + or - buttons to increase or decrease the levels continuously. Press the + and - buttons simultaneously to return to the level of initially set level.

8. Beat

Press the Beat button. The Beat voice will be produced. Select the Beat voice from 4 Beat voices, which is 1/4, 2/4, 3/4 and 4/4 beats, when you play the instrument by pressing the button once more time for different beats.

9. Top Panel Percussion

Select one of the 8 Percussion buttons and press it in accordance with the list as follows (total 8 kinds of percussion available for this instrument) to produce the percussion accordingly when you play.

Panel percussion list

Wood Block L	Hand Clap	Hi-Hat Open	Hi-Hat Closed	Snare L	Bongo L	Bass Drum H Soft	Bass Drum L

10. Pitch bend

Push up or pull down the pitch bend when you play to bend notes up or down continuously. Release the pitch bend to return the initial standard notes.

Rhythm Accompaniment and its Functions

1. Start /stop

Press Start/stop button to start and select the accompaniment from 0 to 299 in accordance with the appendix by pressing the number buttons in numeric group buttons, or by pressing +/- button, to select the accompaniment.

2. Sync

Press Sync button to start the Sync effect and press any key of the left 19 keys to have Rhythm when you play. In this case, the auto chord will be in effect when you play any key in left 19 keys if chord effect is started. Press the Sync button to end the Rhythm effect and start sync effect when rhythm is being played. Press Sync button to end sync effect when sync effect is running.

3. Fill in

Press Fill-in button to add a short fill in rhythm variation at any time while the rhythm is playing. Then the normal Rhythm will begin from next measure.

4. Accompaniment Volume

There are 8 levels of accompaniment volume. The default level of accompaniment volume is 06. Press + or - button to adjust the accompaniment volume with the selected volume being displayed on digital display. Press the + and - button simultaneously to reset the volume to default status.

Auto accompaniment

1. Single Finger

Press Start/Stop button to start the auto accompaniment. Then press Single Finger to start single finger accompaniment. Press any key of left 19 keys of the keyboard to begin rhythm. Press different key on left keyboard to select different chord. One key you press will always determine the root of the chord you played. Please refer to the following chart of playing C, Minor, Seventh and Minor-seventh Chords in Single finger Mode. Press Start/Stop button again to end the effect.

2. Fingered Chord

Press Start/Stop button to start the auto accompaniment. Then press Fingered accompaniment button to start fingered accompaniment. Press any key of left 19 keys of the keyboard to begin rhythm. Press different key on left keyboard to select different chord. Once you play any chord in auto accompaniment section of keyboard, the chord along with rhythm will be automatically begun to play. Please refer to the following chart of playing chord types. Press Start/Stop button again to end the effect.

3. Chord Clear

Press Chord Clear button to end the auto accompaniment under chord status, the rhythm will be continued to play.

Recording

1. Press Record button to engage the record mode. Then press any key in keyboard or voice of drums to start recording with Max. 48 while the number being shown on digital display. The recording will be automatically ended while record is full and FUL is shown on digital display. All previous record will be automatically cleared while recording the new one.

2. Press Play button to play the tones you recorded.

3. Press Program button to engage program mode.

Demo all

Press the Demo all even sing every song to play from the first song, and will automatically play all songs. press again to stop.

Demo one

Press the Demo one to sing songs, and will automatically play next song, then press to stop. Repeated pressing into the next songs.

Teaching function

Press the One key teaching or Follow teaching to enter the teaching function then press the number keys or the +/- button to select different teaching Songs. Press the one key teaching button once again to exit.

One key teaching: Whether you play correctly or not, the song will automatically played continuously.

Follow teaching: Follow the display to play the note correctly, then play the next note shown automatically on display.

14	Direct seeding	31	Rain	48	Minuet in G major
15	Turkey March	32	Pamela	49	Carman Overture
16	A cradle	33	Bnnie Edgar		

Trouble	Possible reason/eliminating method
Accompanied by noise whenever the power is switched ON or OFF.	This is normal. Please do not worry.
No sound while pressing any key with power switched on	Are the Master Volume control and accompaniment Volume levels turned to the proper position. The internal speaker system is automatically shut off when some equipment is plugged to the headphone jack.
The sound is distorted or intermittent. More seriously, the instrument crashed.	In this case, unqualified DC-adapter is probably in use or your batteries are probably flat and need replacement.
The note and note quality under the same voice are tiny different	This is normal perhaps the note with this tiny difference in note quality is initially adopted.
Sustain produces longer or shorter when used	This is normal. In this case, the best sustain effect for each note is initially set by the producer.
Master Volume and Accompaniment volume is changed	Are the Master control and accompaniment volume turned to proper levels?
The accompaniment key changes while you are playing synchronously.	Perhaps you accidentally pressed a key in the left-hand range. (left 19 keys of keyboard)
No sound, no LED display when AC-Power adapter is in use	Is there power available in power socket and the AC-adapter is well plugged into power jack? Is the Power jack in good connection with AC-Power adapter
No sound, no LED display when the batteries are used.	Are you sure the batteries are properly placed with Anode/cathode or perhaps the batteries are flat.
The pitch of note changes	Is the "Transpose" +/- turned to be "00" position?
The speakers make noise when Mobil phone is used nearby.	The mobile phone nearby should be switched off or placed far from the instrument. Perhaps the mobile phone interfere the instrument and cause the noise.

■ Standard

- GB8898-2011 GB17625.1-2012
- GB13837-2012

■ Display

- LED Display

■ Voice

- 300 kinds of voices

■ Rhythm

- 300 kinds of rhythm

■ Demo song

- 50 demo songs

■ Effect control

- Keyboard drum、 sustain、 vibrato、 keyboard split、 transpose、 fine tuning、 beat、 pitch bend

■ Record and program

- Record、 play、 program

■ Percussion

- 8 kinds of panel percussion

■ Accompaniment control

- Start/stop、 syn、 fill in、 tempo

■ Chord control

- Single finger、 fingered chord、 chord clear

■ Intelligent teaching

- Demo one、 Demo all、 one key teaching、 follow teaching
